PROFESSIONAL SUMMARY

Motivated Computer Science Engineering (Data Science) student with hands-on experience in frontend development, artificial intelligence, data science, and machine learning. Skilled in building responsive web applications and AI-powered solutions with a strong focus on creating intuitive user experiences. Passionate about learning, problem-solving, and developing impactful real-world projects.

KEY SKILLS

Technical Skills: Python, Java, C, JavaScript, HTML5, CSS3, React.js, Tailwind CSS, Node.js, Flask, MySQL

Data Science & AI: Pandas, NumPy, Machine Learning, Data Analysis, OpenCV, Prompt Engineering

Tools & Platforms: Git, GitHub, VS Code, Firebase, Vercel, Canva, Figma

Soft Skills: Leadership, Communication, Problem Solving, Team Collaboration, Event Coordination

EXPERIENCE

CodeAlpha Internship – Web Development Intern

Remote | May 2025 – Jun 2025

- Developed and enhanced web projects using HTML, CSS, JavaScript, and modern frontend frameworks.
- Built responsive interfaces and ensured cross-browser compatibility and optimal performance.
- Collaborated with team members to deliver functional, user-friendly web solutions.

EDUCATION

Babu Banarasi Das Institute of Technology and Management (BBDITM)

Lucknow, Uttar Pradesh

Bachelor of Technology (B.Tech) – Computer Science & Engineering (Data Science)

Expected Graduation: 2028

PROJECTS

- ConsentAI – AI Consent Verification Platform:** Built an AI-powered consent verification platform with liveness detection, consent recording, certificate generation, and QR-based verification using Next.js, TypeScript, Firebase and face detection technologies.
- Luxora Travel Platform:** Developed a luxury travel booking platform with responsive UI, modern design, and smooth user experience using React and Tailwind CSS.
- AKTU Survival Hub:** Created a centralized academic resource platform for AKTU students including notes, previous year papers, and important updates.
- AI Air Writing System:** Developed a computer vision application using Python and OpenCV that enables users to write in the air using hand gesture recognition.
- Netflix Data Analysis:** Performed exploratory data analysis on Netflix datasets using Python, Pandas, NumPy and visualized key insights using Matplotlib and Seaborn.
- Python Calculator:** Built a GUI-based calculator application using Python and Tkinter with enhanced UI and functionalities.
- Naavya AI Chatbot:** Built an AI-powered chatbot using NLP techniques to provide intelligent and context-aware responses to user queries.

CERTIFICATIONS

- JP Morgan Chase & Co. – Quantitative Research Virtual Experience Program
- Deloitte – Data Analytics Virtual Experience Program
- Tata – GenAI Powered Data Analytics Job Simulation
- Tata – Cybersecurity Analyst Job Simulation
- BCGX – Data Science Job Simulation
- BCGX – GenAI Job Simulation
- BCGX – Introduction to Data for Decision Makers

LEADERSHIP & ACTIVITIES

Class Representative (CR): Represent student concerns and coordinate communication between faculty and students.

NAAC & NBA Volunteer: Assisted in academic accreditation activities, documentation management, and institutional coordination.
